# SENATE BILL No. 95

### DIGEST OF INTRODUCED BILL

Citations Affected: IC 8-1-8.4.

Synopsis: Merchant power plants. Requires a petitioner to receive siting approval from the utility regulatory commission (IURC) before constructing a merchant power plant in Indiana. Allows the IURC to approve the plant if it will not be adverse to the interests of local residents and all Indiana citizens. Specifies factors that the IURC must consider in acting upon a siting petition. Requires proof that a petitioner has considered certain types of potential sites. Requires a petitioner to provide an assessment of the potential impact of the plant on its proposed water resource. Requires a petitioner to file certain financial instruments and an estimate of the expenses of decommissioning the plant. Requires the IURC to hold a public hearing upon each siting petition. Requires an approved plant to submit certain reports to the IURC. Allows the IURC to revoke an approval if a plant does not operate as required. Provides that information on a plant's fuel arrangements or electric sales is not a public record. Requires the state utility forecasting group to conduct an annual study to assess the regional needs for and impacts of merchant power plants.

Effective: Upon passage.

# Gard

January 6, 2004, read first time and referred to Committee on Utility and Regulatory Affairs.

#### Second Regular Session 113th General Assembly (2004)

PRINTING CODE. Amendments: Whenever an existing statute (or a section of the Indiana Constitution) is being amended, the text of the existing provision will appear in this style type, additions will appear in this style type, and deletions will appear in this style type.

Additions: Whenever a new statutory provision is being enacted (or a new constitutional provision adopted), the text of the new provision will appear in this style type. Also, the word NEW will appear in that style type in the introductory clause of each SECTION that adds a new provision to the Indiana Code or the Indiana Constitution.

Conflict reconciliation: Text in a statute in this style type or this style type reconciles conflicts between statutes enacted by the 2003 Regular Session of the General Assembly.

## SENATE BILL No. 95

A BILL FOR AN ACT to amend the Indiana Code concerning utilities and transportation.

Be it enacted by the General Assembly of the State of Indiana:

	)	
	•	

1	SECTION 1. IC 8-1-8.4 IS ADDED TO THE INDIANA CODE AS
2	A NEW CHAPTER TO READ AS FOLLOWS [EFFECTIVE UPON
3	PASSAGE]:

Chapter 8.4. Merchant Power Plant Certification and Siting Sec. 1. As used in this chapter, "brownfield" has the meaning set forth in IC 13-11-2-19.3.

- Sec. 2. (a) As used in this chapter, "merchant power plant" means an electric generating facility, all or a designated part of which is used for the production and sale of electric energy exclusively into the wholesale power market or to other utilities, energy service providers, or power marketers in or outside Indiana.
- (b) The term does not include a cogeneration facility (as defined in IC 8-1-2.4-2(c)) or plants owned by any of the following:
  - (1) A corporation organized and operating under IC 8-1-13.
  - (2) A nonprofit Indiana corporation, most members of which are organized and operating under IC 8-1-13.

1	(3) A joint agency created and operating under IC 8-1-2.2.
2	(4) A municipally owned utility.
3	Sec. 3. As used in this chapter, "person" means any corporation,
4	company, partnership, limited liability company, individual,
5	association of individuals, or their lessees, trustees, or receivers
6	appointed by a court.
7	Sec. 4. As used in this chapter, "petitioner" means a person that
8	files with the commission a petition under this chapter to site a
9	merchant power plant.
10	Sec. 5. A person that owns, operates, manages, or controls a
11	merchant power plant in Indiana is a public utility (as defined in
12	IC 8-1-2-1(a)).
13	Sec. 6. (a) A person may not begin to construct a new merchant
14	power plant by significantly altering a site to install permanent
15	equipment or structures unless the person files a petition with and
16	obtains approval from the commission under this chapter.
17	(b) The commission shall issue a decision approving or denying
18	a petition under this chapter not later than two hundred seventy
19	(270) days after the filing of the petitioner's case in chief. The
20	commission may suspend the running of the two hundred seventy
21	(270) day period if the commission finds that:
22	(1) the petitioner did not file its case in chief in sufficient
23	detail to allow the commission to begin a review of the
24	request;
25	(2) the petitioner materially altered the petitioner's case in
26	chief after its filing;
27	(3) an order compelling production of discovery by the
28	petitioner has not been satisfied within the time provided in
29	the order; or
30	(4) the commission temporarily lacks jurisdiction over the
31	proceeding due to the filing of an interlocutory judicial appeal
32	of a commission ruling or order.
33	The suspension ends and the running of the two hundred seventy
34	(270) day period resumes as soon as the cause for suspension is
35	cured.
36	(c) A person filing a petition under this chapter shall publish a
37	notice of the filing in a newspaper of general circulation published
38	in the county in which the site of the proposed merchant power
39	plant is located.
40	Sec. 7. The commission may approve the siting of a merchant
41	power plant if the commission determines that the siting of the
42	merchant power plant is not adverse to the interests of:

1	(1) the citizens of Indiana in general; and	
2	(2) the citizens of the locality in which the site of the proposed	
3	merchant power plant is located.	
4	Sec. 8. The commission shall consider the following when acting	
5	upon a petition under this chapter:	
6	(1) The need for the merchant power plant, as supported by	
7	evidence that the proposed facility will meet the demand of	
8	the regional power market. In making a determination under	
9	this subdivision, the commission shall request evidence from	
10	the petitioner that demonstrates the existence of market	
11	conditions supporting the construction of a merchant power	
12	plant selling electric energy in the wholesale market at	
13	competitive rates.	
14	(2) The location of the merchant power plant.	
15	(3) The ownership or transfer of ownership of the merchant	
16	power plant.	
17	(4) The management of the merchant power plant.	
18	(5) The financing of the merchant power plant.	
19	(6) The capacity of the merchant power plant.	
20	(7) The type and size of the merchant power plant.	
21	(8) The type of fuel used by the merchant power plant.	
22	(9) The merchant power plant's fuel supply arrangements and	
23	their effect on the reliability of Indiana's electrical system and	
24	the price and availability of the fuel for other uses in Indiana,	
25	taking into account the effects of other merchant power	
26	plants.	
27	(10) The merchant power plant's potential electric supply	
28	contracts.	V
29	(11) The merchant power plant's impact on the electric and	
30	gas transmission and delivery systems serving Indiana.	
31	(12) The merchant power plant's impact on:	
32	(A) water supplies and usage, taking into account the	
33	impact of other merchant power plants using the same or	
34	interconnected sources of water; and	
35	(B) current users of the merchant power plant's sources of	
36	water.	
37	(13) Local ordinances and area plans.	
38	(14) Oral and written testimony received by the commission	
39	under section 12 of this chapter.	
40	(15) The results of the study required under section 19 of this	
41	chapter.	
42	(16) Other factors that the commission considers relevant in	

1	making a determination under this chapter.
2	Sec. 9. The petitioner must provide documentation to the
3	commission that the petitioner has thoroughly considered the
4	feasibility and economics of the following types of sites:
5	(1) Brownfield sites that are isolated from populated areas.
6	(2) Sites of existing or former utilities that can be replaced or
7	repowered.
8	(3) Other sites identified for power plant and heavy industrial
9	development in local land use plans before the initiation of site
10	selection for the merchant power plant.
11	Sec. 10. A petitioner shall provide to the commission an
12	assessment of the proposed merchant power plant's effect on the
13	plant's water resource and the users of the water resource. The
14	assessment shall be prepared by a licensed professional geologist
15	(as defined in IC 25-17.6-1-6.5) or an engineer registered under
16	IC 25-31-1. The assessment must include, but is not limited to, the
17	following information:
18	(1) Sources of water supply.
19	(2) Total amount of water to be used by the merchant power
20	plant from each source.
21	(3) Location of wells or points of withdrawal.
22	(4) Ability of the water resource to meet the needs of the
23	merchant power plant and other users.
24	(5) Ability of the water resource to meet the future needs of
25	the county in which the proposed merchant power plant will
26	be located.
27	(6) Alternative sources of water supply.
28	(7) Conservation measures proposed by the petitioner for
29	reducing the merchant power plant's effect on the water
30	resource.
31	(8) Studies evaluating the availability of and most practical
32	method of withdrawal, development, and use of the water
33	resource.
34	(9) A method for metering or other reasonable measuring of
35	water withdrawals and reporting of the measurement to the
36	commission.
37	(10) Any other information related to water resource
38	assessment the commission may require.
39	Sec. 11. (a) If a person files a petition with the commission under
40	this chapter or any other law for the siting of a merchant power
41	plant, the person must establish proof of financial responsibility by
42	filing one (1) of the following financial instruments or a

1	combination of the following financial instruments with the
2	commission at a time, either before or after commission approval
3	of the petition, that is determined by the commission but is subject
4	to the time specified in subsection (d):
5	(1) A surety bond.
6	(2) A letter of credit.
7	(3) A certificate of insurance.
8	(4) A financial test.
9	(5) A corporate guarantee.
10	(6) Any other financial guarantee approved by the
11	commission.
12	(b) The petitioner shall prepare a cost estimate that includes a
13	detailed estimate of the costs associated with fully decommissioning
14	the facility and returning the site to its prior condition.
15	(c) The financial instrument selected and used by the petitioner
16	under this section must be sufficient to cover costs contained in the
17	cost estimate required under subsection (b).
18	(d) The petitioner must submit a copy of the cost estimate
19	required under subsection (b) and the financial instrument
20	required under subsection (a) to the commission for approval not
21	later than sixty (60) days after the approval by the commission of
22	the petition.
23	Sec. 12. (a) Not later than thirty (30) days after the petitioner
24	has prefiled the petitioner's case in chief with the commission for
25	the siting of a merchant power plant under this chapter, the
26	commission shall conduct a hearing at a location in the county in
27	which the site of the proposed merchant power plant is located.
28	(b) The commission shall send notice of the hearing by first class
29	mail not later than ten (10) days before the hearing to the
30	following:
31	(1) Relevant state regulatory agencies, as determined by the
32	commission.
33	(2) Zoning and area plan authorities for the:
34	(A) county; and
35	(B) municipality, if any;
36	where the merchant power plant is proposed.
37	(3) Record owners of real property located within one-half
38	(1/2) mile of the site of the proposed merchant power plant.
39	However, at the commission's discretion, the commission may
40	notify record owners of real property located within two (2)
41	miles of the proposed site in sparsely populated areas.
42	(c) The commission shall cause notice of the hearing to be

1	published in a newspaper of general circulation in each county in	
2	which a proposed site of the proposed merchant power plant is	
3	located. The publication required under this subsection must occur	
4	once a week for two (2) weeks, with the second publication	
5	occurring not later than fifteen (15) days before the date of the	
6	hearing.	
7	(d) The commission shall accept written and oral testimony	
8	from any person who appears at the public hearing.	
9	(e) The commission shall make a record of the hearing and all	
10	testimony received. The commission shall make the record	
11	available for public inspection.	
12	Sec. 13. Following the approval of a petition by the commission,	
13	the merchant power plant shall submit the following to the	
14	commission:	
15	(1) At least one (1) week before commencement of	
16	construction activities, a startup report that includes the:	
17	(A) status of necessary permits; and	
18	(B) date on which the merchant power plant is expected to	
19	be placed in service.	
20	(2) A midpoint report, to be submitted at a time determined	
21	by the commission, that includes information concerning the:	
22	(A) status of construction; and	
23	(B) date on which the merchant power plant is expected to	
24	be placed in service.	
25	(3) A testing notice at least two (2) weeks before any testing of	
26	the merchant power plant.	
27	(4) At the time of the initial commercial operation of the	
28	merchant power plant, a notice of initial operation that	V
29	includes the following:	
30	(A) Information identifying all contracts for firm sales of	
31	power to utilities both in and outside Indiana.	
32	(B) A summary of fuel contracts, including any pipelines	
33	involved in the transactions.	
34	(C) Any contingency plans providing details on a proposed	
35	response to emergency conditions, as required by the state	
36	or local units of government, transmission owners, or a	
37	regional transmission grid operator.	
38	(D) The merchant power plant's certified dependable	
39	capacity rating.	
40	(5) Not later than thirteen (13) months after the date on which	
41	the merchant power plant is first placed in service, a first year	
12	report that includes the following:	

1	(A) Summer and winter dependable capacity ratings.
2	(B) The annual capacity factor, including the summer and
3	winter seasonal capacity factor.
4	(C) The hours of operation for each season.
5	(D) Total annual, peak day, and summer seasonal water
6	usage and discharge.
7	(E) An itemization of transmission load restrictions or
8	other operational restrictions incurred during the year.
9	(F) The number of employees employed by the merchant
10	power plant.
11	(6) Other information requested by the commission.
12	Sec. 14. Following approval by the commission of a petition for
13	the siting of a merchant power plant, the petitioner must:
14	(1) notify the commission upon becoming an affiliate of any
15	public utility selling electricity at retail to Indiana consumers;
16	(2) obtain prior commission approval for the sale of electricity
17	to an affiliate that is a public utility selling electricity at retail
18	to Indiana consumers, except for electricity purchased by the
19	affiliate on the wholesale spot market;
20	(3) obtain prior commission approval of any transfers of
21	ownership of the merchant power plant or its assets;
22	(4) obtain commission approval before altering the capacity
23	of or significantly altering the size of the merchant power
24	plant; and
25	(5) obtain commission approval before altering the type of
26	fuel used by the merchant power plant.
27	Sec. 15. After notice and hearing, the commission may withdraw
28	its approval for the siting of a merchant power plant if the
29	petitioner or subsequent owner or operator:
30	(1) fails to commence construction of the merchant power
31	plant within two (2) years after the date of the commission's
32	order of approval and is not diligently pursuing the
33	commencement of construction of the merchant power plant;
34	or
35	(2) fails to complete construction of the merchant power plant
36	within five (5) years after the date of the commission's order
37	of approval.
38	Sec. 16. (a) A person that receives commission approval of the
39	siting of a merchant power plant under this chapter or any other
40	law, or the subsequent owner or operator of the merchant power
41	plant for which siting approval is given, must operate the merchant
12	power plant in accordance with the commission's order of

jurisdiction under IC 8-1-2.5 with respect to a merchant power plant and its developer, the developer may not exercise the powers conferred under IC 4-20.5-7-10.5, IC 5-11-10-1(c)(1), or IC 8-1-8-1, or any other rights, privileges, or immunities conferred by law on electric utilities assigned service areas under IC 8-1-2.3 on account of the obligation of electric utilities assigned service areas under IC 8-1-2.3 to serve the general public without undue discrimination at regulated rates and charges.  (c) Except as provided by federal law, the commission has sole and exclusive jurisdiction over the siting and location of utility facilities in Indiana, including merchant power plants.  Sec. 18. Information pertaining to a merchant power plant's:  (1) fuel arrangements or contracts; or  (2) electric sales and contracts;  that are approved by the commission under this chapter or any other law is not a public record under IC 5-14-3.  Sec. 19. The commission shall direct the state utility forecasting group established by IC 8-1-8.5-3.5 to conduct an annual regional power market study to assess the following:  (1) The need for additional merchant power plants in the region.  (2) The effect of merchant power plants on the following:  (A) The price of fuels used by merchant power plants.  (B) The price of electricity.	1	
operating in accordance with the commission's order of approval, the commission may:  (1) order an investigation; and (2) revoke the approval after the investigation, a hearing, and the conclusion of any appeals in the matter.  Sec. 17. (a) Notwithstanding IC 8-1-2.5-5, the commission may not decline to exercise its jurisdiction under this chapter with respect to the siting approval of a merchant power plant. However, the commission may adopt rules under IC 4-22-2 to establish procedures for the exercise of its jurisdiction under this chapter based on the type, size, or fuel resource of the merchant power plant.  (b) Whenever the commission substantially declines its jurisdiction under IC 8-1-2.5 with respect to a merchant power plant and its developer, the developer may not exercise the powers conferred under IC 4-20.5-7-10.5, IC 5-11-10-1(c)(1), or IC 8-1-8-1, or any other rights, privileges, or immunities conferred by law on electric utilities assigned service areas under IC 8-1-2.3 on account of the obligation of electric utilities assigned service areas under IC 8-1-2.3 to serve the general public without undue discrimination at regulated rates and charges.  (c) Except as provided by federal law, the commission has sole and exclusive jurisdiction over the siting and location of utility facilities in Indiana, including merchant power plants.  Sec. 18. Information pertaining to a merchant power plant's:  (1) fuel arrangements or contracts; or  (2) electric sales and contracts;  that are approved by the commission under this chapter or any other law is not a public record under IC 5-14-3.  Sec. 19. The commission shall direct the state utility forecasting group established by IC 8-1-8.5-3.5 to conduct an annual regional power market study to assess the following:  (1) The need for additional merchant power plants in the region.  (2) The effect of merchant power plants on the following:  (3) The price of fuels used by merchant power plants.		**
the commission may:  (1) order an investigation; and (2) revoke the approval after the investigation, a hearing, and the conclusion of any appeals in the matter.  Sec. 17. (a) Notwithstanding IC 8-1-2.5-5, the commission may not decline to exercise its jurisdiction under this chapter with respect to the siting approval of a merchant power plant. However, the commission may adopt rules under IC 4-22-2 to establish procedures for the exercise of its jurisdiction under this chapter based on the type, size, or fuel resource of the merchant power plant.  (b) Whenever the commission substantially declines its jurisdiction under IC 8-1-2.5 with respect to a merchant power plant and its developer, the developer may not exercise the powers conferred under IC 4-20.5-7-10.5, IC 5-11-10-1(c)(1), or IC 8-1-8-1, or any other rights, privileges, or immunities conferred by law on electric utilities assigned service areas under IC 8-1-2.3 on account of the obligation of electric utilities assigned service areas under IC 8-1-2.3 to serve the general public without undue discrimination at regulated rates and charges.  (c) Except as provided by federal law, the commission has sole and exclusive jurisdiction over the siting and location of utility facilities in Indiana, including merchant power plants.  Sec. 18. Information pertaining to a merchant power plant's:  (1) fuel arrangements or contracts; or  (2) electric sales and contracts; that are approved by the commission under this chapter or any other law is not a public record under IC 5-14-3.  Sec. 19. The commission shall direct the state utility forecasting group established by IC 8-1-8.5-3.5 to conduct an annual regional power market study to assess the following:  (1) The need for additional merchant power plants in the region.  (2) The effect of merchant power plants on the following:  (3) The effect of merchant power plant construction and		• •
(1) order an investigation; and (2) revoke the approval after the investigation, a hearing, and the conclusion of any appeals in the matter.  Sec. 17. (a) Notwithstanding IC 8-1-2.5-5, the commission may not decline to exercise its jurisdiction under this chapter with respect to the siting approval of a merchant power plant. However, the commission may adopt rules under IC 4-22-2 to establish procedures for the exercise of its jurisdiction under this chapter based on the type, size, or fuel resource of the merchant power plant.  (b) Whenever the commission substantially declines its jurisdiction under IC 8-1-2.5 with respect to a merchant power plant and its developer, the developer may not exercise the powers conferred under IC 4-20.5-7-10.5, IC 5-11-10-1(c)(1), or IC 8-1-8-1, or any other rights, privileges, or immunities conferred by law on electric utilities assigned service areas under IC 8-1-2.3 to serve the general public without undue discrimination at regulated rates and charges.  (c) Except as provided by federal law, the commission has sole and exclusive jurisdiction over the siting and location of utility facilities in Indiana, including merchant power plants.  Sec. 18. Information pertaining to a merchant power plant's:  (1) fuel arrangements or contracts; or  (2) electric sales and contracts;  that are approved by the commission under this chapter or any other law is not a public record under IC 5-14-3.  Sec. 19. The commission shall direct the state utility forecasting group established by IC 8-1-8.5-3.5 to conduct an annual regional power market study to assess the following:  (1) The need for additional merchant power plants in the region.  (2) The effect of merchant power plants on the following:  (3) The price of fuels used by merchant power plants.  (B) The price of fuels used by merchant power plants.		
(2) revoke the approval after the investigation, a hearing, and the conclusion of any appeals in the matter.  Sec. 17. (a) Notwithstanding IC 8-1-2.5-5, the commission may not decline to exercise its jurisdiction under this chapter with respect to the siting approval of a merchant power plant. However, the commission may adopt rules under IC 4-22-2 to establish procedures for the exercise of its jurisdiction under this chapter based on the type, size, or fuel resource of the merchant power plant.  (b) Whenever the commission substantially declines its jurisdiction under IC 8-1-2.5 with respect to a merchant power plant and its developer, the developer may not exercise the powers conferred under IC 4-20.5-7-10.5, IC 5-11-10-1(c)(1), or IC 8-1-8-1, or any other rights, privileges, or immunities conferred by law on electric utilities assigned service areas under IC 8-1-2.3 on account of the obligation of electric utilities assigned service areas under IC 8-1-2.3 to serve the general public without undue discrimination at regulated rates and charges.  (c) Except as provided by federal law, the commission has sole and exclusive jurisdiction over the siting and location of utility facilities in Indiana, including merchant power plants.  Sec. 18. Information pertaining to a merchant power plant's:  (1) fuel arrangements or contracts; or  (2) electric sales and contracts;  that are approved by the commission under this chapter or any other law is not a public record under IC 5-14-3.  Sec. 19. The commission shall direct the state utility forecasting group established by IC 8-1-8.5-3.5 to conduct an annual regional power market study to assess the following:  (1) The need for additional merchant power plants in the region.  (2) The effect of merchant power plants on the following:  (3) The price of fuels used by merchant power plants.  (B) The price of fuels used by merchant power plants.		
the conclusion of any appeals in the matter.  Sec. 17. (a) Notwithstanding IC 8-1-2.5-5, the commission may not decline to exercise its jurisdiction under this chapter with respect to the siting approval of a merchant power plant. However, the commission may adopt rules under IC 4-22-2 to establish procedures for the exercise of its jurisdiction under this chapter based on the type, size, or fuel resource of the merchant power plant.  (b) Whenever the commission substantially declines its jurisdiction under IC 8-1-2.5 with respect to a merchant power plant and its developer, the developer may not exercise the powers conferred under IC 4-20.5-7-10.5, IC 5-11-10-1(c)(1), or IC 8-1-8-1, or any other rights, privileges, or immunities conferred by law on electric utilities assigned service areas under IC 8-1-2.3 to serve the general public without undue discrimination at regulated rates and charges.  (c) Except as provided by federal law, the commission has sole and exclusive jurisdiction over the siting and location of utility facilities in Indiana, including merchant power plants.  Sec. 18. Information pertaining to a merchant power plant's:  (1) fuel arrangements or contracts; or  (2) electric sales and contracts;  that are approved by the commission under this chapter or any other law is not a public record under IC 5-14-3.  Sec. 19. The commission shall direct the state utility forecasting group established by IC 8-1-8.5-3.5 to conduct an annual regional power market study to assess the following:  (1) The need for additional merchant power plants in the region.  (2) The effect of merchant power plants on the following:  (3) The price of fuels used by merchant power plants.  (B) The price of fuels used by merchant power plants.		
Sec. 17. (a) Notwithstanding IC 8-1-2.5-5, the commission may not decline to exercise its jurisdiction under this chapter with respect to the siting approval of a merchant power plant. However, the commission may adopt rules under IC 4-22-2 to establish procedures for the exercise of its jurisdiction under this chapter based on the type, size, or fuel resource of the merchant power plant.  (b) Whenever the commission substantially declines its jurisdiction under IC 8-1-2.5 with respect to a merchant power plant and its developer, the developer may not exercise the powers conferred under IC 4-20.5-7-10.5, IC 5-11-10-1(c)(1), or IC 8-1-8-1, or any other rights, privileges, or immunities conferred by law on electric utilities assigned service areas under IC 8-1-2.3 to serve the general public without undue discrimination at regulated rates and charges.  (c) Except as provided by federal law, the commission has sole and exclusive jurisdiction over the siting and location of utility facilities in Indiana, including merchant power plants.  Sec. 18. Information pertaining to a merchant power plant's:  (1) fuel arrangements or contracts; or  (2) electric sales and contracts; that are approved by the commission under this chapter or any other law is not a public record under IC 5-14-3.  Sec. 19. The commission shall direct the state utility forecasting group established by IC 8-1-8.5-3.5 to conduct an annual regional power market study to assess the following:  (1) The need for additional merchant power plants in the region.  (2) The effect of merchant power plants on the following:  (A) The price of fuels used by merchant power plants.  (B) The price of electricity.		
not decline to exercise its jurisdiction under this chapter with respect to the siting approval of a merchant power plant. However, the commission may adopt rules under IC 4-22-2 to establish procedures for the exercise of its jurisdiction under this chapter based on the type, size, or fuel resource of the merchant power plant.  (b) Whenever the commission substantially declines its jurisdiction under IC 8-1-2.5 with respect to a merchant power plant and its developer, the developer may not exercise the powers conferred under IC 4-20.5-7-10.5, IC 5-11-10-1(c)(1), or IC 8-1-8-1, or any other rights, privileges, or immunities conferred by law on electric utilities assigned service areas under IC 8-1-2.3 on account of the obligation of electric utilities assigned service areas under IC 8-1-2.3 to serve the general public without undue discrimination at regulated rates and charges.  (c) Except as provided by federal law, the commission has sole and exclusive jurisdiction over the siting and location of utility facilities in Indiana, including merchant power plants.  Sec. 18. Information pertaining to a merchant power plant's:  (1) fuel arrangements or contracts; or (2) electric sales and contracts;  (2) electric sales and contracts;  that are approved by the commission under this chapter or any other law is not a public record under IC 5-14-3.  Sec. 19. The commission shall direct the state utility forecasting group established by IC 8-1-8.5-3.5 to conduct an annual regional power market study to assess the following:  (1) The need for additional merchant power plants in the region.  (2) The effect of merchant power plants on the following:  (A) The price of fuels used by merchant power plants.  (B) The price of electricity.		* **
